

Global International Relocation

Welcome to Global International

At Global International Relocation we are specialists in international mobility of human resources. In early 2014, 6 years after our foundation (2008), we reached the leadership of the Portuguese International Mobility market. Today we offer the largest integrated international mobility support services, personalised and key-in-hand, with only one contact point.

We invest in the provision of high quality services in the areas of international moving, relocation and immigration, property services, special transport for pets and works of art, excess baggage service, storage and temporary custody of assets, and file management.

We know that more than physical goods, people are at the centre of any mobility process: their ambitions, concerns and feelings are our priority. We will meet your expectations because every detail matters and we ensure that the cost / benefit relation of our service is the most efficient and beneficial. This commitment ensures us a high degree of loyalty from our customers around the world, with a dissatisfaction rate of only 0.3%.

We receive international recognition from our partners, reflected in the fact that we are the only national company to integrate OMNI, the world network of leading companies in relocation and international moving. We are also the most certified company to operate in this sector in Portugal.

Our Services

- Immigration
- Relocation
- Moving
- Storage
- Express
